PROFESSIONAL SUMMARY

Dedicated and results-driven Mobile App Developer with over three years of experience delivering high-quality mobile applications for Android, iOS with adaptability to new technologies. Skilled in Cloud services and creating user-friendly, mobile application. Known for fostering productive teamwork and communicating effectively to drive project success, while also showcasing the capacity to excel autonomously.

CORE COMPETENCIES

- ✔ Android App Development
- ✔ Technical proficiency and experience
- ✔ React-Native App Development
- ✔ Self-directed learner
- ✔ Flutter App Development
- ✔ Code quality and best practices maintenance
- ✔ Design thinking and UI/UX improvements
- ✔ Strong communication and interpersonal skills

SKILLS

➡ Kotlin, Java, Dart, HTML5, CSS3, JavaScript, Swift

➡ RESTful APIs, JSON Data Integration (RxJava, Retrofit, OkHttp)

➡ Utilizing Libraries: LeakCanary, Kotlin Coroutines, ROOM, Navigation, Crashlytics

➡ Design patterns MVVM, MVC

➡ Familiarity with iOS technologies, demonstrating a commitment to continuous learning

➡ Competence in UI and UX design principles, ensuring an intuitive user experience

➡ Proficiency in Android SDK, Java, and Android app development

➡ Attention to detail, with a flare of creativity

➡ Agile and flexible, capable of delivering features and fixes within tight timeframes

➡ Strong focus on improving product simplicity and user-friendliness

➡ Analytical thinking and functional problem-solving

PROFESSIONAL EXPERIENCE

Android & Flutter Developer   Serpent Consulting Services Pvt. Ltd. | March 2019 - July 2022

- Swiftly grasped user behaviors and effectively identified potential issues and enhancements for the Android app, contributing to improved user experiences.
- Seamlessly collaborated with the product development team to add multiple features in line with project goals, prioritizing items in the pipeline.
- Actively contributed to bug fixing, feature development, and the successful launch of a native Android app within tight timeframes.
- Consistently evaluated opportunities for simplifying the product and enhancing usability, aligning with an agile development approach.
- Maintained familiarity with the Google Play Console, facilitating app deployment, monitoring, and optimization on the Google Play Store.
- Actively participated in design meetings, contributing to the evolution of UI and usability standards, while analyzing and resolving functional problems for enhanced user experiences.

EDUCATION

Mobile Application Development (co-op) - PostGraduate Diploma, Ontario College Graduate Certificate

Fanshawe College | 2022 - 2023

- A comprehensive program focused on mobile app development, covering Kotlin Android development, iOS app development, React Native, and mobile UI/UX design.
- Developed and applied industry-standard coding practices to ensure robust and maintainable codebases.
- Achieved recognition on the **Dean's Honour Roll**, with **CGPA** of **4.13**.

Bachelor's in Computer Application

Ganpat University, India | 2011 - 2014

- Proficient in C, Java, ASP .NET, and SQL for database management.
- Developed a web application project utilizing Java Hibernate and Struts frameworks with an SQL database for my final semester.

PROJECTS

Virtual-Cook Recipe App - Capstone Project 🔗 GitHub

- Developed a dynamic cross-platform recipe application using React Native, showcasing skills in versatile app development.
- Consistently followed UI/UX design principles, patterns, and best practices to ensure exceptional user experiences.
- Utilized Redux architectural patterns to manage state and data flow efficiently, enhancing the performance and stability of applications.
- Unit-tested code for robustness, usability, and general reliability, adhering to best development practices.
- Improved app accessibility and engagement by integrating a Text-to-Speech feature and offering Dark and Light theme options, complemented by customizable App-Color settings.

CoffeeGram: Coffee Sharing Platform (React-Native with Firebase Backend) 🔗 GitHub

- Conceptualized and created CoffeeGram, a platform for sharing different coffee experiences.
- Participated actively in code reviews to uphold code quality, performance, and consistency.

Dad Joke App (MVVM, LiveData, Room, Retrofit) 🔗 GitHub

- Implemented offline data storage solutions, multithreading, and performance optimization techniques, resulting in responsive and efficient applications.
- Used software design patterns effectively to enhance code modularity & maintainability.
- Excelled in debugging, troubleshooting, and resolving problems occurring in various layers of the Android system.

CERTIFICATIONS

Advanced Android Bootcamp (Jetpack, Architecture & More)

Udemy | 2023

- Android Jetpack : Data Binding, View Binding, View Model, Live Data, Room Data Persistence, Paging, Work Manager, Navigation, LifeCycle aware components.

Android Material Design

Udemy | 2022

- Introduction, Implementation and Mastering Material Design Feature.
